PROFILE

Hard-working, reliable professional whose career is built on **long-term partnerships**, with hands-on experience in hotel maintenance, grounds and a high-volume kitchen in the U.S., and **twenty years** in live television in Brazil. Through study and dedication I grew into a **Systems & Data Analyst** role serving large companies and industries across Brazil. I remain **fully available for hands-on work**, done with **efficiency, honesty and commitment**.

LONG-TERM PARTNERSHIPS

I don't change jobs often. Every position I have held became a partnership of years.

4 years
Days Inn
General maintenance · U.S.

3 years
TGI Fridays
Line cook · U.S.

20 years
TV Gazeta (Rede Gazeta)
Master control & camera · Brazil

Today
Hero1
Systems & data analyst

HOW I WORK

Efficiency
Ran three kitchen stations at once during peak hours and kept a busy hotel guest-ready every day.

Honesty
Trusted for two decades with live TV, and today with the financial data of client companies.

Commitment
Twenty years with one employer. On time, every time, and in it for the long run.

HANDS-ON EXPERIENCE

Maintenance & repairs · Grounds & landscaping · Walkway & outdoor safety · Ceramic tile installation · High-volume food prep · Sanitation & food safety · Tools & equipment · Heavy physical work

General Maintenance Worker — 4 years
Days Inn · Hyannis, Massachusetts, USA

- Performed routine upkeep and repairs inside and outside the hotel, keeping rooms, common areas and the building guest-ready every day.
- Took care of the grounds and landscaping: lawns, hedges, walkways and outdoor service areas.
- Kept entrances, walkways and the property perimeter safe for guests, experience that transfers directly to snow removal and sand/grit spreading.
- Handled heavy physical tasks and maintenance tools and equipment, always with courtesy and safety first around guests.

Line Cook — 3 years
TGI Fridays · Hyannis, Massachusetts, USA

- Prepared and cooked large volumes of food in a fast-paced corporate restaurant, following recipe and plating standards.
- Ran the grill, salad and pasta stations, often at the same time, keeping orders moving during peak dining hours.
- Completed the daily prep of meats, vegetables and sauces, and kept the station spotless, dishwashing included, under all health and safety rules.
- Worked closely with front-of-house staff and management to deliver smooth, friendly guest service.

PROFESSIONAL GROWTH

From live television to systems and data analysis, built on study, focus and hard work.

Data analysis & KPI dashboards · SQL & Oracle databases · Stored procedures & views · Sankhya ERP · Income statement & cash flow reports · Java ERP extensions · Process automation · Client support · Live broadcast operations · Camera & video editing

Systems & Data Analyst

Hero1 Tecnologia e Negócios · Brazil — Present

Serving large companies and industries across Brazil, in sectors such as food processing, agribusiness, distribution and retail, on the Sankhya ERP platform.

- Build management dashboards that turn ERP data into decisions: revenue vs. goals, margins, cash flow, income statement, receivables, HR and production.
- Write and tune SQL queries, views and stored procedures on Oracle databases, checking every number against its source.
- Develop ERP customizations: additional tables and screens, Java actions, integrations and scheduled e-mail alerts.
- Handle client requests end to end, from understanding the business need to guiding the production rollout step by step.
- Document every project in detail, so the work can be picked up and maintained at any time.

Master Control Operator, Camera Operator & Video Editor

TV Gazeta (Rede Gazeta) · Espírito Santo, Brazil — 20 years

Two decades with the TV Globo affiliate in Espírito Santo, part of Brazil's largest television network.

- Ran master control: playout, signal monitoring and on-air continuity, where every second on air depends on the operator.
- Camera operator on studio and field recordings, and video editor cutting news stories and programs to time.
- Moved across several areas of the station and kept up with new equipment and workflows over 20 years.
- Performed under live, deadline-driven pressure, shift after shift, with no room for error.
